

Questionnaire MOTORISED WINDING/COILING MACHINE

What do you want to wind

It is :	Electric cable	Steel cable	Optical fiber	
	Hose	Pipe	Rope	
	Other :			
Technical characteristics of the product you want to wind :				
External coating :	PVC	Rubber	Neoprene	
	Bare conductor (metal)	Twisted cable	Other :	
Product flexibility :	Flexible product	Semi-rigid product		
Shape :	Round	Twisted	Flat material	
	Other :			
Dimensions :	Ø mini :	mm	Ø maxi :	mm
	Width (if flat material) :	mm	Thickness (if flat material) :	mm
	Weight (with unit: ex Kg/meter) :			

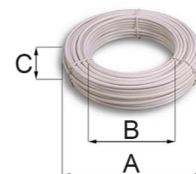

Desired repackaging

(technical characteristics and cable specifications must be checked and approved by the customer)

Make coils

External diameter A	mini :	mm	maxi :	mm
Internal diameter B	mini :	mm	maxi :	mm
Thickness C	mini :	mm	maxi :	mm
Maximum weight :	kg			

Make spools/drums

External diameter A	mini :	mm	maxi :	mm
Central hole diameter B	mini :	mm	maxi :	mm
Total width C	mini :	mm	maxi :	mm
Maximum weight :	kg			

Cut to length

(with or without winding device)

Smallest Length :	mm	Longest length :	mm
-------------------	----	------------------	----

Unwinder specifications

Original packaging to unwind:

Coils :	Maximal weight :	Kg
Spools/drums :	Maximal weight :	Kg
Détail :		

Current unwinder used :

Unwinder with rolls.
Drums Racks
Axle unwinder
Other :

Working environment and use

Country where the machine will be used :

Use : Inside Outside

Machine : Fixed point Movable

Floor quality :

Electrical feeding :

110V 230V Single phase 380V Tri-phases

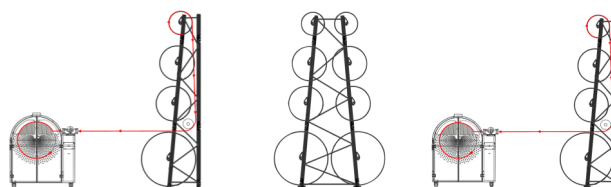

Frequency of use :

Quantity of cuts : / Day / Month

Machine in front of a cable drums rack :

Rack 1 side

Rack 2 side

Other important information :

Contact information

Company : Name : Phone :
Code client : First Name : E-mail :

Please send back this questionnaire at : contact@cable-equipements.fr

To optimise the analysis of your needs, you can also send us samples (cables or spools) :
